QUANG VU

Business Development | Partner Development, B2B Relationship Management & Market Analysis

Ho Chi Minh City, Vietnam | vungo1502@gmail.com | 0828 320 015 | linkedin.com/in/quang-vu-37ba29397

PROFESSIONAL SUMMARY

Business-minded professional with hands-on experience serving as the primary point of contact for 8 enterprise B2B accounts, managing partner relationships, and translating market/performance data into clear commercial recommendations. Built a CRM system from scratch and trained 50+ users, working cross-functionally with Sales, Operations, and Technical teams to keep partnerships running smoothly. Strong analytical foundation (SQL, Python, Excel/Power BI) from a backend development background gives an edge in evaluating partner fit and communicating credibly with technology-driven partners. Detail-oriented, fast learner, and comfortable owning targets and reporting in a fast-paced, cross-functional environment.

CORE STRENGTHS FOR BUSINESS DEVELOPMENT

- **Partner & Account Relationship Management** — Acted as the main point of contact for 8 enterprise B2B accounts, building and maintaining long-term working relationships across Sales, Operations, and Technical stakeholders.
- **Market & Performance Analysis** — Analyzed campaign, lead, and performance data to spot trends, compared results against targets, identified root causes of gaps, and delivered clear recommendations to cross-functional teams.
- **CRM Ownership & Cross-Functional Rollout** — Designed, built, and documented a Pipedrive CRM from scratch; trained 50+ internal users on adoption and best practices — direct experience turning a new system into an effective partner-facing tool.
- **Reporting & Process Documentation** — Wrote and maintained SOPs and workflow guides to keep multi-account processes consistent, plus prepared regular performance reporting for internal stakeholders.
- **Technical Background** — Basic-to-intermediate backend development experience (Node.js, PHP, Python, SQL) provides enough technical grounding to understand and follow conversations with technology providers and technical partners — useful for Manufacturing Solutions and tech-driven partnerships.
- **Automation & AI-Driven Research** — Self-taught n8n and Claude AI for research and lead processing — reflects the initiative and market-research instincts BD roles require.

PARTNER SOURCING & OUTREACH METHODOLOGY

Structured, research-led approach to identifying and engaging new partners through LinkedIn and email — building pipeline without relying on cold calling:

- **Identify target partners** — Define target industry, company size, and job titles (e.g., BD/Partnership Managers, C-level) using LinkedIn Sales Navigator filters; use Apollo to enrich and verify contact/email data.
- **Pre-outreach research** — Review the prospect's LinkedIn activity, company news, and website to personalize outreach (e.g., recent expansion, funding, hiring signals) before making contact.
- **Multi-channel sequencing** — Send a personalized LinkedIn connection request, follow up with an open, discovery-style message, then move to a concise, value-first email if there's no response — with a clear, low-friction call-to-action (e.g., a short call).
- **Follow-up & CRM tracking** — Run a short, polite follow-up cadence (2–3 touches) across LinkedIn and email, log every interaction in the CRM, and qualify interest through discovery questions before proposing a meeting.

WORK EXPERIENCE

Sales Operations & Campaign Performance Analyst — Nov 2025 – May 2026

Telestar VN | B2B lead generation & SDR outsourcing firm, 8 enterprise SaaS clients

- Served as the main point of contact for 8 enterprise B2B client accounts, coordinating across Sales, Operations, and Technical teams to keep partnerships running smoothly and resolve issues before they impacted the relationship.
- Designed, built, and documented a Pipedrive CRM from scratch, then trained 50+ internal users — end-to-end ownership of a new system from concept to adoption.
- Analyzed campaign and lead performance data across 8 accounts to identify trends, compare results against targets, and provide market/commercial insight to Sales and Operations teams.
- Investigated performance gaps against targets, identified root causes, and worked with stakeholders on corrective actions — directly transferable to partnership performance monitoring.

- Wrote and maintained SOPs, workflow guides, and account records to keep collaboration consistent and scalable across a growing portfolio of accounts.
- Self-taught n8n and used Claude AI to automate research and lead-processing workflows, validating AI-generated output against manual research before use — reflects a proactive, self-directed approach to market research.

Web Developer Intern (Backend focus) **Oct 2023 – Jan 2024**

CloudGo Services Vietnam

- Worked on backend development using Node.js, PHP, and Python; built web pages using HTML, CSS, JavaScript, and Bootstrap.
- Wrote SQL queries on MySQL databases to design data structures, retrieve data, and create basic reports — a technical foundation that supports credible engagement with technology partners and providers.

SKILLS & TOOLS

- **CRM & Partner Management:** — Pipedrive (built from scratch), HubSpot, Zoho CRM, Salesforce basics.
- **Analysis & Reporting:** — Market data analysis, KPI/gap analysis, Excel dashboards, Power BI (in progress, incl. DAX basics).
- **Technical:** — SQL, Python (basic-to-intermediate), MySQL, familiar with relational database concepts.
- **Automation & AI:** — n8n (self-taught), Claude AI, Claude Cowork; open to Airflow / Power Automate.
- **Prospecting Tools:** — Apollo, LinkedIn Sales Navigator, Seamless.
- **Documentation:** — SOP writing, process documentation, stakeholder-facing workflow guides.
